Ng'uni

Software Developer

PROFILE SUMMARY

Frontend developer and UX/UI designer passionate about crafting seamless, user-friendly digital experiences. Skilled in HTML, CSS, JavaScript frameworks, and React Native for web and mobile development. I blend clean code with thoughtful design to create intuitive interfaces. A strong collaborator and clear communicator, I thrive in dynamic teams focused on innovation and user-centered solutions. Seeking a frontend role where I can apply my expertise in both design and development to make a meaningful impact.

HIGHLIGHTED PERSONAL PROJECTS

- AICCRA Innovation Website | WordPress Developer & Designer
- Built with: WordPress | Figma
 - Created the website's visual identity, designing captivating layouts, and user interfaces using Figma.
 - Developed the website from scratch using WordPress, customizing themes and plugins to align with the design vision.
- Koloso Mobile App | Frontend Developer
- Built with: React Native
 - Developed a cross-platform mobile app on both iOS and Android
 - Collaborated with teammates to develop a gaming-to-learn mobile app for people of all ages - combining social interaction and personal development and fun.

WORK EXPERIENCE

SOFTWARE DEVELOPER March 2023 - present
BongoHive Consult
SOFTWARE DEVELOPER (INTERN) Jul 2022 - Feb 2023
BongoHive Consult

- Collaborating effectively with software development team members and personnel in other departments.
- Communicate - asking questions, giving feedback, giving status updates and constantly improving the quality of communication (in person and remotely)
- Write highly functional and maintainable code.
- Shipping medium complexity features.
- Understanding client needs and mapping them to a software solution.
- Writing documentation
- Occasionally answering customer support questions
- Occasionally setting up hardware, software and networking
- Guide software developer interns on a rotational basis
- Write user stories.
- Interrogate application design (user experience and architecture)

TECHNICAL SUPPORT ENGINEER (PART-TIME) Mar 2022 - Feb 2023
Microverse Software Development School

- Providing technical support to 10+ Microverse students by performing 20+ code reviews per week.
- Interacting with students by providing quality, kind and direct feedback on their projects.
- Providing help to 3+ students every week related to bug fixing
